MAY LUNCH MEETING	7
A&WMA MEMBER GET-A-MEMBER CAMPAIGN	8

MESSAGE FROM THE CHAIR

The environmental calendar of compliance continues to be more crowded as the layers of rules and regulations continue to be issued by the state and federal agencies. Of course since everyone is busy studying and responding to the ever changing requirements, there is less time than ever to keep up. Also, the environmental requirements have begun to be very specific for each type of industry.

One of the goals of the Louisiana Section is to help our members keep up with these emerging environmental regulatory issues through bi-monthly meetings, the annual conference and newsletters. We tar-

get a broad range of issues that affect the regulated community as well as regulators, consultants and lawyers. In keeping with this goal, A&WMA recently held a Climate Policy Conference, and the presentations have been made available at <http://www.awma.org/proceedings/climatepolicypuzzle08.html>.

On Friday, May 16th, the Louisiana Section is having a lunch meeting to reach members who are unable to attend the bi-monthly dinner meetings. Our May lunch meeting will be held at Boudreaux's in Baton Rouge and our speaker will be Michael Dupree, an attorney from the Louisiana Ethics Ad-

ministration Program who will

INTERNATIONAL ELECTIONS

A&WMA's international elections are underway. In late March, you should have received a letter from the Association announcing the election and providing you with a web-link to the election site where you can view information on the candidates and cast your vote.

The election site will be open until Wednesday, May 28, 2008; however, the Louisiana Section urges you to cast your vote as early as possible, if you have not done so already. Historically, only about 18% of the membership votes in the international elections. Let's try to

get as close as possible to 100% participation in the Louisiana Section.

The candidates for President -Elect and three Board of Director positions are:

President Elect

- * Gwen Eklund
- * Bill Palermo
- * John Seitz

Board of Directors – Regulatory Category

- * Ravi Srivastava
- * Michael Vince

Board of Directors – Regulated Category

- * Daniel Weiss
- * Scott Golla

Board of Directors – Other Category

- * Stan Hayes
- * Randy Rudolph
- * Howard Saxion

Again, lets try to get our Louisiana Section participation in the international elections up to the 100% mark!

Don't forget to VOTE!!

MESSAGE FROM THE CHAIR

(Continued from page 1)

update us on the evolving ethics issue. Ethics has been a key issue for Governor Jindal's administration. This issue directly affects each of us professionally.

Additionally, we will be celebrating the passing of the

May 15th deadline for ERIC submittals, which so many of us are involved in. So please join us and take a deep breath before you rush off to meet your next deadline—be it completing the Semiannual Title V Monitoring Reports or the TRI reports.

I invite your input and

feedback on the timing (lunch or dinner) and topics or speakers for bimonthly meetings. The Louisiana Section would be happy to have a workshop or host a webinar on topics of interest. Upcoming webinars are posted on the A&WMA website at [http://www.awma.org/events/](http://www.awma.org/events/index.html)

[index.html](#).

I look forward to hearing from you, please email me at cindy.thompson@ppmco.com or give me a call at 225-293-7270.

Section Chair

MARCH DINNER MEETING

The March dinner meeting was held on Thursday, March 27, 2008 at Captain Anderson's Restaurant in the Gonzales Holiday Inn. The meeting began with a social hour, and dinner was served at 6:30 pm.

Mrs. Cheryl Nolan of the Louisiana Department of Environmental Quality was

the featured speaker for this meeting. Mrs. Nolan spoke about the 2008 Path Forward for Permitting.

Each of the permitting Divisions is preparing a work plan outlining the principal targets (i.e. permits issued) and other goals. Progress towards the work plan targets will be monitored

monthly. Efficiency and effectiveness will be improved by developing general permits for minor air sources, electronic submittal of general permit applications and regulatory permits.

It is the goal of DEQ to issue Title V Renewals within 18 months of receipt of a complete application. Issues such

as multiple notice of deficiencies and financial assurance in solid and hazardous waste permitting are being reviewed to see how to streamline the process.

There were over 60 attendees present for this meeting.

LSU STUDENT CHAPTER NEWS

The LSU student chapter of the AWMA has elected a new group of student leaders. Derek Rusin was elected as chair, Jacob Morrison as vice-chair, and Lauren Leblanc as secretary/treasurer.

On Thursday, March 27, several student AWMA members, including the new student leaders and the outgoing student chair Ben Aucoin, attended the Louisiana Section dinner meeting. At the dinner, booklets

containing the résumés of students seeking environmental positions were made available. The dinner was a good opportunity for the students to have questions answered by professionals in the field and for the profes-

sionals to evaluate students as potential future employees.

Derek Rusin
Student Chapter Chair

LOUISIANA ENVIROTHON 2008

The Louisiana Envirothon (LE) had another great competition in April. With the goal of providing environmental education and developing knowledgeable, skilled and dedicated citizens willing to improve their communities, we are seeing a consistently larger and more motivated group of young people attending LE training and competition. LE partners resource management professionals with the general public, and they work together to promote and strengthen environmental education.

The Louisiana Envirothon is a multidisciplinary, environmental problem-solving competition for students in grades 6 through 12. Teams of five young people from the same school or associated with an organized group (i.e. FFA, 4-H, home school, BSA) train and compete in natural resource areas: soils, aquatic resources, forestry, wildlife, and a current environmental issue. There is also an oral presentation component of the competition, in which teams present a solution to an environmental problem related to the current issue.

This year's current issue was our recreational impacts on natural environments. Throughout the competition students learn hands-on and in a real-life context the complexities of solving environmental problems while working as a team and having fun.

LE 2008 was held at the Model Sustainable Agriculture Center (MSAC) of the University of Louisiana at Lafayette near St. Martinville on April 5,

2008. Competition winners included:

Current Issue Station — Louisiana School of Math, Science & Arts

All other stations — Acadiana Home School

Third place all around — Louisiana School of Math, Science & Arts

Second place all around — Audubon Zoo Marsupials

First place all around - Acadiana Home School

Acadiana Homeschool, the team of 9th-12th grade students with the highest overall score, will travel to the Canon Envirothon competition in Flagstaff, AZ this summer to represent Louisiana. Information on the Canon Envirothon Competition can be found at www.envirothon.org.

The AWMA Louisiana Section provides savings bonds for the LE second place team. Congratulations to the Audubon Zoo "Marsupials"!! And THANKS to the Louisiana

AWMA!!! You are great partners!!!

This was the first time for the Audubon Zoo to bring a team to the LE competition and they brought TWO teams!! They report that they are planning to join us again next year with even more young people.

If you are interested in serving as a team mentor or would like additional information, please contact Karen Fisher-Brasher by sending email to karen.fisher@la.gov. You can call her at 225-219-3265, or you can visit www.deq.louisiana.gov/envirothon. If you are interested in becoming a sponsor for the Louisiana Envirothon, please contact Colette Anzalone, UL Lafayette, Department of Renewable Resources, P. O. Box 44650, Lafayette, LA 70504, phone 337-482-5349, email colette@louisiana.edu.

MEMBERSHIP COMMITTEE ACTIVITIES

The Louisiana Section recently formed a working Membership Committee to evaluate and implement membership initiatives. At a strategy planning meeting last summer, the Louisiana Section Board identified several key areas of focus for the upcoming years. One of these is membership enhancement.

Some of the key initiatives include membership growth, membership retention, member recognition, and membership value. The activities of the committee will be aligned with Association goals for membership

recruitment and retention.

The Membership Committee is chaired by Daniel Wolf and is comprised of the following volunteers:

Valerie Mayhall, Shaw

Lori Pittman, CH2MHill

Shane Sandefer, Kean-Miller

Maud Walsh, LSU

An initial kick-off meeting (conference call) was held on April 14 to brainstorm on committee initiatives. Additional ideas, feedback and volunteers are welcome.

Please contact Daniel Wolf at 225-339-2774 or daniel.wolf@basf.com if you have ideas or would like to volunteer your time and talent.

AIR & WASTE MANAGEMENT
ASSOCIATION

Louisiana Section

NEWSLETTER EDITORIAL TEAM

On December 17th, several members of the LA Section participated in a meeting/conference call to discuss redevelopment ideas for our newsletter. Participating on the call were Diane Leche, Chad Scott, Katie Hiatt, Kevin Calhoun, Shawn Pritchett, and Michael Vince.

The purpose of the meeting was to evaluate our A&WMA publication "The Monitor" and determine how to improve it. We discussed how another similar publication is produced and came up with ideas for moving forward with enhancements to our newsletter. Below are listed the general topic areas that we would like to include in our newsletter:

◆ Regulatory update (one

each for air, water and waste)

◆ Website reviews – this is a compilation of websites that contain useful information

◆ A DEQ update – what has happened and what is upcoming

◆ A message from the Section Chair

◆ Information from our Section committees that is important

◆ Calendar (includes educational opportunities and meeting announcements from other associations that are relevant to our members)

◆ A welcome to new members

◆ A list of our sponsors

◆ A listing of the editors and

contributors to the newsletter

◆ Updates from the Chapters (LSU Student, Southwest, etc)

◆ An ozone status update

◆ Upcoming volunteer opportunities and corporate community involvement opportunities

◆ A "Meet the Member" feature where you might meet a Section Member, or a Board Member

◆ Student Profiles – with links to our website where we might post student resumes

There may be some other areas where we want to go, but we decided to try to get these going first! Some of these we're already doing.

Already, some members have stepped forward and volunteered to work on some of the sections:

Curtis Shakotko volunteered to submit pieces for a regulatory update (one each for air, water and waste), a regulatory analysis, and calendar items. Maud Walsh will help by working on student and member profile pieces. Jamie Godbold will work on updates from the Air Operating Permits Workgroup meetings. And several other members have also volunteered. If you are interested in submitting items for The Monitor, please contact [Michael Vince](mailto:Michael.Vince@basf.com) at 225-219-3485.

ADOPT A SCHOOL

The primary purpose of the Louisiana Section Adopt-A-School program is to select an elementary school at which the Section will award a cash donation for use at the 5th or 6th grade level in the area of science education. It is the Louisiana Section's desire that the funds be allocated to a specific project or purpose rather than simply becoming assimilated into the school's general fund. In addition to the cash dona-

tion, the Louisiana Section also endeavors to assist the school in its program for the year by providing speakers and arranging other educational offerings throughout the year.

We have three grant recipients this year. First Place is \$1,500 for Slidell Junior High School, and \$1,000 each for North Corbin Junior High School and Oil City Elementary Magnet School.

Raquel Murphy (l) presents awards to Adopt-A-School grant recipients: Laura Dunlap (North Corbin Jr. High School), Beverly Browning (Slidell Jr. High School), and Cynthia Kilpatrick (Oil City Elementary Magnet School).

OUTSTANDING ACHIEVEMENT AWARD

In 2001, the Louisiana Section of the Air & Waste Management Association established an annual award to recognize outstanding achievement in the fields of air pollution control and waste management.

The Section has been pleased with the high quality of projects nominated for the award in previous years, and we are now requesting nominations for the award in 2008. Air pollution technical achievements may include: specific processes that minimize or more effectively control air pollution; new air pollution equipment; and improved management practices that reduce air pollution or help to examine its impacts (i.e., sophisticated models). Material/waste engineering projects may include: production process changes that minimize by-product formation; processes for recycling/reuse of by-products and/or waste; applied novel techniques for destroying waste; and overall improved systems for waste disposal. The 2008 award recipient will be a company or individual whose contribution to the state of the art technology has been accomplished within the last two years.

Please submit the name of the company or individual being nominated, plus a short description of the project or achievement. Submittals should not exceed ten pages (including text, figures, calculations, photographs, etc.) and should be sent to the following address:

Air & Waste Management Association, Louisiana Section
Outstanding Achievement Award
c/o Valerie L. Mayhall
Shaw Environmental & Infrastructure, Inc.
5353 Essen Lane
Baton Rouge, Louisiana 70809

The company being nominated should be a Corporate Sponsor of the Louisiana Section of the Air & Waste Management Association. An individual nominated should be a member of the Association. Nominations will be accepted through May 2008, and the award will be presented at our dinner meeting in September 2008.

We look forward to receiving your nominations!

Valerie L. Mayhall is the Awards
Chair of the Louisiana Section.

 Visit the Louisiana Section on the web at LA-AWMA.org!

The Louisiana Section of the
Air and Waste Management Association
will hold its May Lunch Meeting at

Boudreaux's
2647 Government Street
Baton Rouge, LA 70806
225-383-5886

**Please note that our ability to handle walk-ins at this venue is limited!!
You must make your reservations by Noon on Monday, May 12th!!!**

**Luncheon Date: Friday, May 16th
Registration 11:30AM – Meeting Begins 12:00 Noon
Section Board Meeting to Follow**

Michael Dupree, an attorney from the Louisiana Ethics Administration Program, is the featured luncheon speaker. Mr. Dupree will speak on the new (and perhaps still evolving during this legislative session) ethics rules which apply to legislators and other state employees.

Reservations: Fax this form to (504) 472-9963 or call Carol Murphy at (504) 472-9993 by **Monday, May 12th at NOON**. In order to complete your registration, we must receive your full name, company, and credit card information. Your credit card will be used only as a guarantee and will not be charged until May 16th. You may still pay by company check or personal check at the meeting, but if you do not attend, your credit card will be charged for the number of people for which you made a reservation. If you have any questions about registering, please EMAIL Carol Murphy at cmurphy@rtpenv.com. If you wish to use email to indicate your intent to attend the meeting, you are welcome to do so, however, please remember that your reservation will not be confirmed until your credit card information is received via telephone, FAX or mail. **The Section cannot accept email messages containing credit card information and any such messages received will be deleted immediately for your protection!**

Please Note: 1.0 hours of PDH Ethics credit
1.0 hours of CLE Ethics credit have been applied for.

A Century of Experience . . . To Solve Today's Challenges

Dear Fellow A&WMA Member:

This year marks the beginning of a new century for the Air & Waste Management Association. A&WMA has much to offer in professional development, networking, and solutions to some of the most complex global environmental problems of the day. As members of A&WMA, we have the security of knowing that the information and contacts we need to work efficiently and intelligently are readily available to us.

With A&WMA's benefits in mind, I am pleased to ask you to join me in a new "member get a member" campaign, aimed at inviting even more professionals into our community. When you recruit your first new member – a co-worker, friend, young professional, student – you will receive a \$15 A&WMA gift certificate good for your next purchase in the Online Library or Logo Shop as a token of my appreciation. Additionally, two of those recruiting the most new members between March 17 and May 31, 2008, will receive a free full-registration to our 101st Annual Conference & Exhibition in Portland, OR, June 24-27, 2008. As an added bonus, at year's end, the three A&WMA members who recruit the most new members between March 17 and November 30, 2008 will each win a \$200 gift certificate that can be used at any of the 2,700 MarriottTM hotels worldwide.

As part of this campaign, the Association is offering a special "Introductory Individual Membership" of \$100. There are also special introductory rates for other membership categories, including organizational members, young professionals, and students, as shown in the enclosed membership application form. These special rates for the "member get a member" campaign only apply to new members or those who have not been A&WMA members for at least one year.

Enclosed with this letter is a tri-fold summarizing the many benefits of A&WMA membership and an application form for membership to help you get started with your recruiting efforts. Of course, when you need additional copies of the tri-fold and application, please contact our Member Services Department at 1-800-270-3444, or, you can download the information or encourage your recruits to join online by visiting the official A&WMA "member get a member" site at www.awma.org.

A&WMA offers many tools to help you achieve your professional goals. Please join me in sharing the many benefits of our Association with as many environmental professionals as possible. Thank you in advance for your continued support in the growth of Air & Waste Management Association. If you have any questions or comments, please write to me at Mathai@awma.org.

Sincerely,

C.V. Mathai, Ph.D., QEP
President, Air & Waste Management Association
