

NSR Program Status

States where 12/31/02 NSR Reform revisions are in effect. Revisions also apply in "no delegation" areas, including Indian lands, and to specific delegated pollutants and sources. Nonattainment areas within States are not delegated for that nonattainment pollutant.

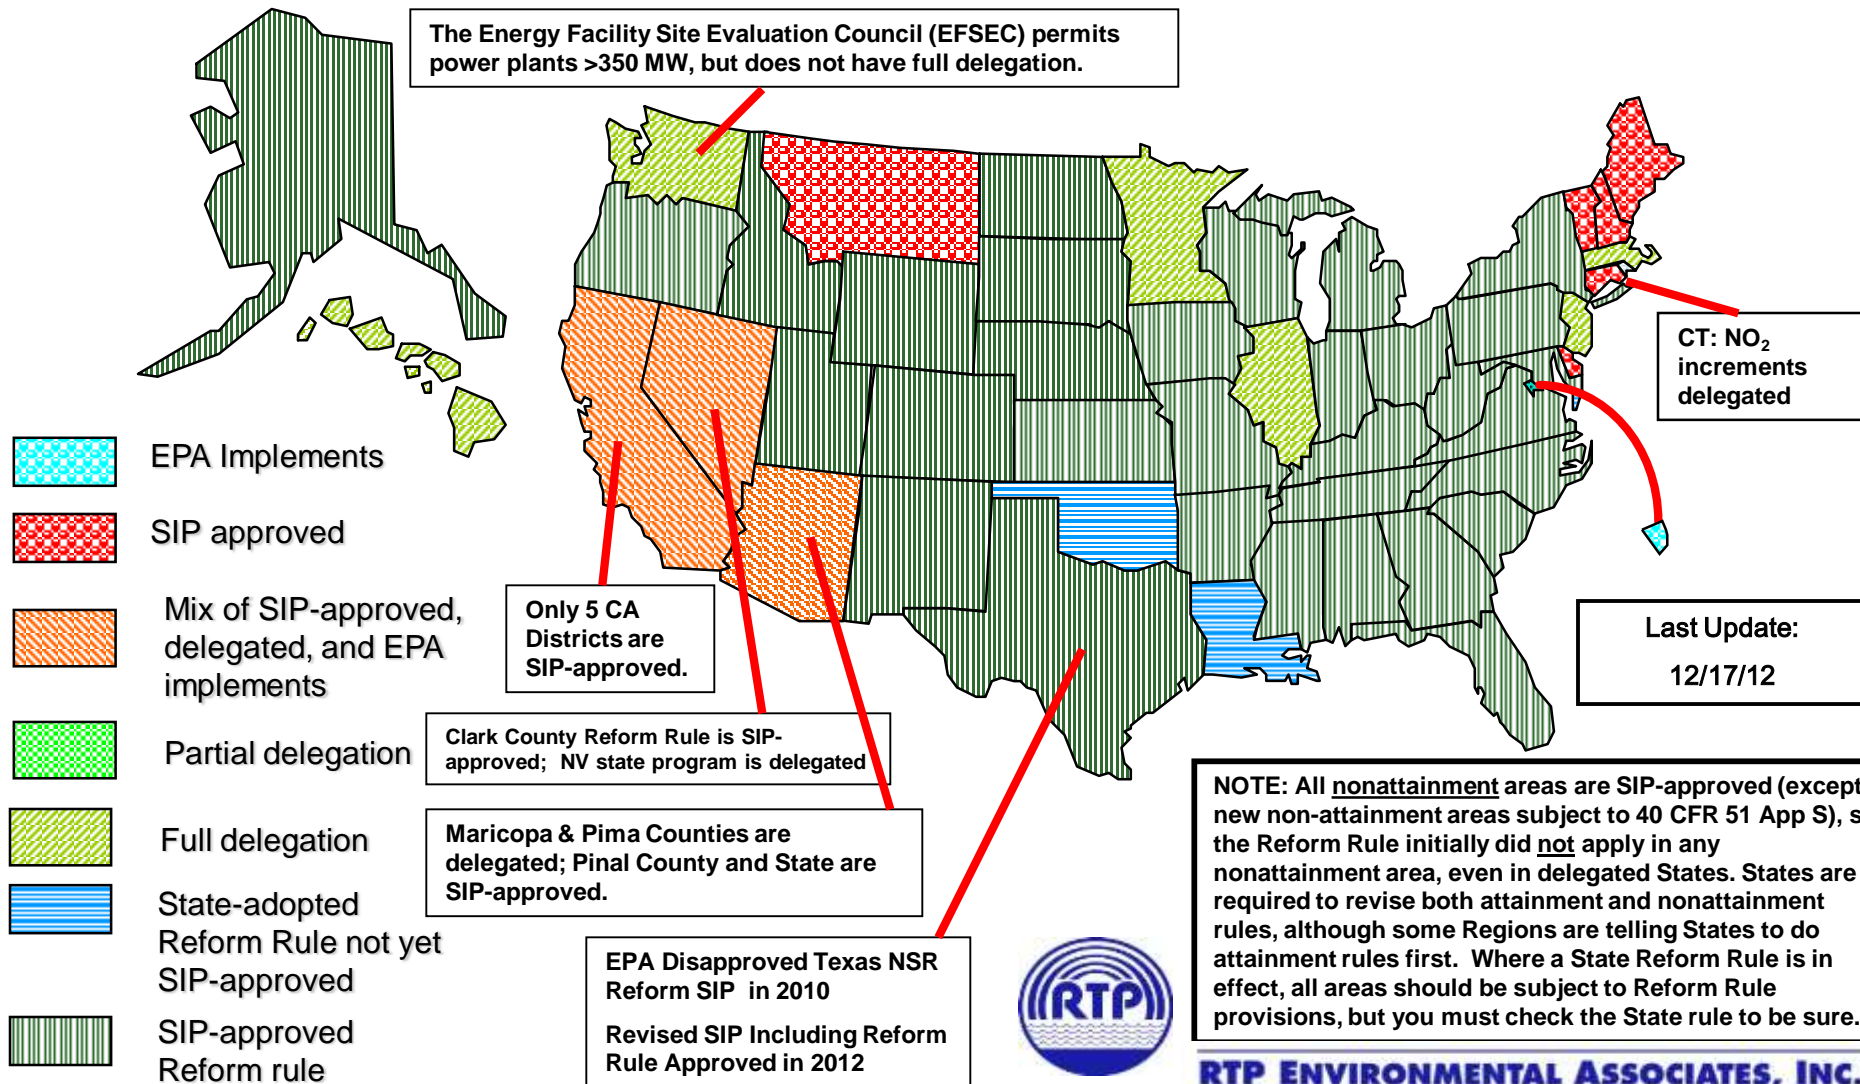

No Delegation (EPA Region issues permits): Puerto Rico, Virgin Islands, Guam, American Samoa, all Indian lands (even in SIP-approved States).

The Energy Facility Site Evaluation Council (EFSEC) permits power plants >350 MW, but does not have full delegation.

CT: NO₂ increments delegated

Last Update:
12/17/12

NOTE: All nonattainment areas are SIP-approved (except new non-attainment areas subject to 40 CFR 51 App S), so the Reform Rule initially did not apply in any nonattainment area, even in delegated States. States are required to revise both attainment and nonattainment rules, although some Regions are telling States to do attainment rules first. Where a State Reform Rule is in effect, all areas should be subject to Reform Rule provisions, but you must check the State rule to be sure.

EPA Implements

SIP approved

Mix of SIP-approved, delegated, and EPA implements

Partial delegation

Full delegation

State-adopted Reform Rule not yet SIP-approved

SIP-approved Reform rule

Only 5 CA Districts are SIP-approved.

Clark County Reform Rule is SIP-approved; NV state program is delegated

Maricopa & Pima Counties are delegated; Pinal County and State are SIP-approved.

EPA Disapproved Texas NSR Reform SIP in 2010
Revised SIP Including Reform Rule Approved in 2012
