# Emissions Reporting

Managed in the  
Manufacturing and Planning  
Section

- ▶ Kelly Petersen
- ▶ Maureen Fleming
  
- ▶ Resource: User Manual and Yearly Webinar
- ▶ Myths
  - ▶ The Department does not employ an Eric that can help you with reporting.
  - ▶ Your Emissions Inventory is directly tied to your permit. Enforcement actions cannot be initiated based on ERIC data alone. However, it may initiate a request for additional information.
  - ▶ We can not supply your login information to your contractor.
- ▶ #1 Question: How to calculate emissions?
  - ▶ It is not the same method used as the permit. Use the following Emission Factors listed in order of priority:
    - ▶ CEMS
    - ▶ Stack Test
    - ▶ AP 42
- ▶ How to get help: email [ERIC@la.gov](mailto:ERIC@la.gov)
- ▶ They can help you pull modeling information from ERIC.
