

The logo features the chemical symbol 'Hg' in a large, white, sans-serif font. A single, stylized mercury drop is positioned to the right of the 'g', appearing to drip from the bottom of the letter. The entire logo is set against a black square background with a thin red border.

The Mercury Cycle

Hg

Blood Mercury Levels in US Children and Women of Childbearing Age

- Scientists have found that methyl mercury contamination of seafood can cause heart damage and irreversible impairment to brain function in children, both in the womb and as they grow.
- Approximately 8% of women have blood mercury concentrations higher than the EPA's recommended reference dose (5.8 ppb).
- EPA reports that one in every six women of childbearing age has enough mercury in her bloodstream to threaten the health of her child.
- More than 600,000 infants are born each year in the US with blood mercury levels higher than 5.8 ppb, the EPA level of concern.

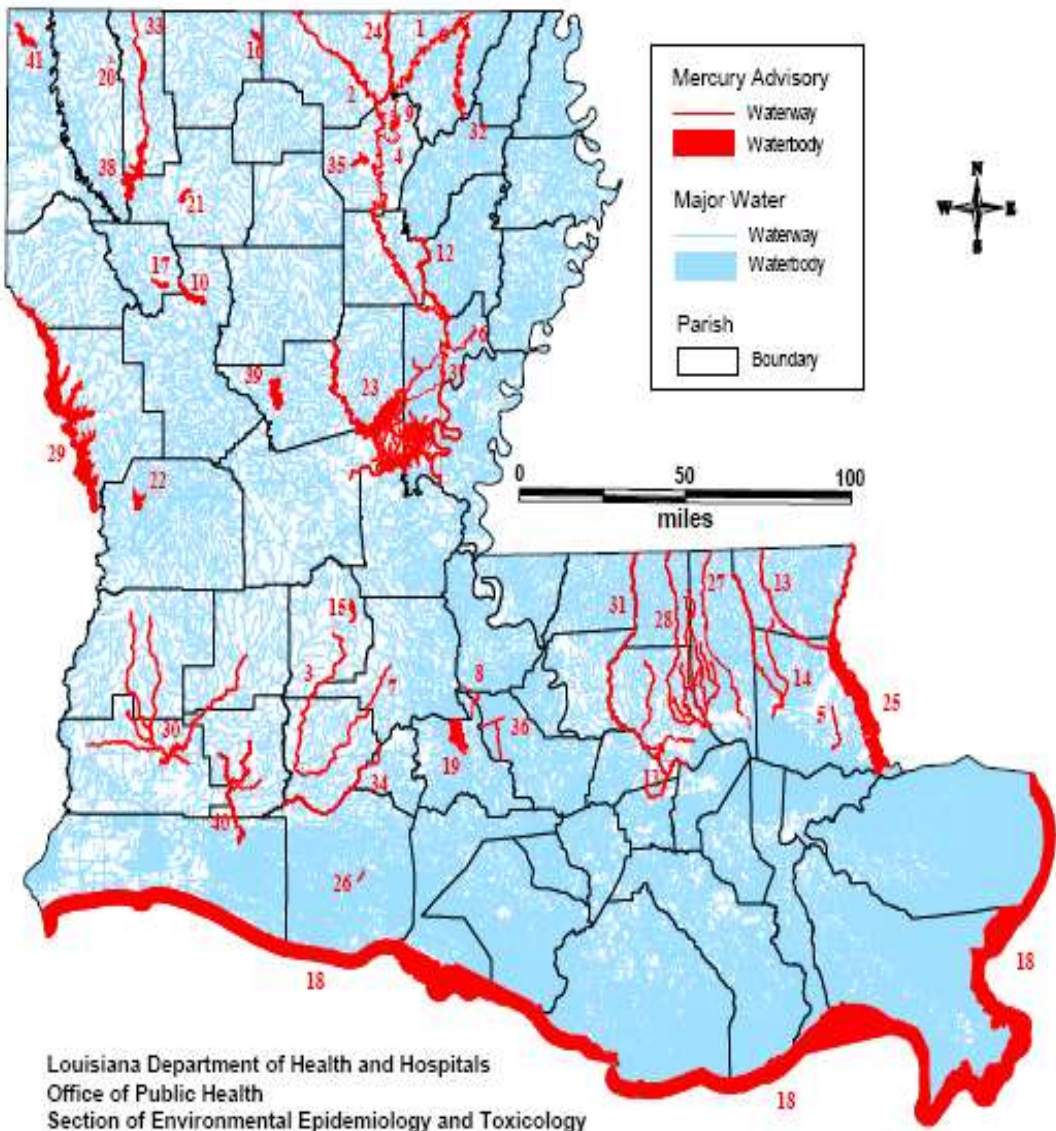

Reducing Risks

1. Manage potential exposures
2. Reduce human-related releases

Louisiana Mercury Fish Consumption Advisories

LOCATION	NUM
Amite River Drainage Basin	31
Bayou Bartholomew	1
Bayou Bonne Idee	32
Bayou Chene and Bayou Lacassine	40
Bayou De Loutre and Associated Lakes	2
Bayou des Cannes	3
Bayou DeSiard	4

Mercury in Finfish and Shellfish

- | | |
|------------------|-------------------|
| SPOTTED SEATROUT | SOUTHERN FLOUNDER |
| SHEEPSHEAD | RED DRUM |
| GAFFTOPSAIL | ATLANTIC CROAKER |
| BLACK DRUM | WHITE SHRIMP |
| EASTERN OYSTER | CRAWFISH |

Mercury in Marine Reef Fishes

- YELLOWEDGE GROUPE
- WARSAW GROUPE
- TRIPLETAIL
- SCAMP
- RED SNAPPER
- LANE SNAPPER
- JACK CREVALLE
- GREATER AMBERJACK
- GAG GROUPE

Mercury in Marine Pelagic Finfish

- | | |
|------------------|---------------|
| YELLOWFIN TUNA | WAHOO |
| SPANISH MACKEREL | LITTLE TUNNY |
| KING MACKEREL | DOLPHIN FISH |
| COBIA | BLACKFIN TUNA |

Mercury in the Environment

Man-Made Sources:

- Nearly 8 million pounds of mercury were produced in the U.S. in 1986 from primary and secondary mining.
- Mercury is/was used in manufacturing processes:
 - Chlorine Production
 - Crude Oil Refining
 - Lumber, Pulp and Paper Mills
 - Carbon Black
 - Steel recycling
- Mercury is present in combustion sources
 - Coal-fired Power Plants
 - Municipal Waste Incineration
 - Crematoria

Man-Made Sources cont'd:

Mercury is/was used in products

- Mercury Manometers Used in Natural Gas Transmission
 - Estimated 25,000 – 30,000 throughout the state.

- Drilling Muds Used Oil and Gas Exploration and Production
- Dentistry
- Laboratories
- Medical Facilities
- Mercury Manometers Used in Dairy Production
- Other Mercury-added products
 - Paints, batteries, fluorescent lighting, switches, relays, thermostats, thermometers

Mercury in Products

- Thermostats 46.7%
- Dental Amalgams 21.0%
- Light Switches 14.1%
- Auto switches 4.7%
- Thermometers 4.7%
- Appliances switches 2.4%
- Batteries 0.6%
- Fluorescent Lights 0.5%

Man-Made Sources cont'd:

- Mercury in Waste
 - Sanitary Sewage Treatment Systems
 - Landfills
- Agricultural and Forestry Practices
 - Mercury has been used extensively in agricultural applications of pesticides and fungicides.
 - Phenyl mercuric compounds were used extensively as slimicides in paper mills.

Natural Sources

- Volcanism
- Geothermal Systems
- Erosion of Mineral Deposits and Soils
- Marine Waters
- Forest Fires

Louisiana Mercury Risk Reduction Plan

- Act 126 of 2006: Mercury Risk Reduction Act
 - Notifications/Disclosure
 - Labeling
 - Collection
 - Product Bans and Phase Outs
 - Auto/appliance switch removal
 - Dental uses
 - Prohibitions of uses in water/waste water systems

Louisiana Mercury Risk Reduction Plan

- Chlor-alkali conversions
- Clean Air Mercury Rule
- Steel Recycling
- Legacy contamination
 - Manometers
 - Lumber/Agriculture uses
- Dental guidelines
- Municipal waste incineration
- Hospitals
- STP scrutiny: Hg Minimization

Louisiana Mercury Risk Reduction Plan

- Enhancing public awareness
 - Video/PSAs
 - Information pamphlets
 - Publications
 - Website (deq.louisiana.gov)
- Enhancing recycling opportunities
- Environmental education
- Promote energy efficiency
- Formalizing partnerships on the Louisiana Mercury Task Force
