**DESIGNATES AN ABSTRACT PRESENTATION TITLE*

2023 LOUISIANA SECTION CORPORATE SPONSORS

BREAZEALE, SACHSE & WILSON, L.L.P.
ATTORNEYS AT LAW

This year's Annual Conference of the Louisiana Section of the Air & Waste Management Association continues a new tradition of networking and collaboration with the Southwest and Gulf Coast Chapters. Beginning in 1995 as a Title V conference, and now 25+ years later, this event continues to be executed by a dedicated group of your fellow professionals. Without their employer support and the collaboration received from the Louisiana Department of Environmental Quality, we would not be here today. The program provides a full waste track again this year, and you'll see more collaboration amongst the speakers in several of the sessions.

On behalf of our Section and Chapters leaders, I would like to express our gratitude to everyone that continues to support our groups. Please join me in thanking all speakers and the Conference Planning Committee (and their employers) for their involvement this year!

Thank you for being here and please take the time to give us feedback on the event when the survey comes out and we are sorry if it is cold in the meeting rooms!
